Film stars Andrew McCarthy and Jonathan Silverman as employees of a young insurance corporation who found out that their boss, Bernie, was dead. While trying to convince people that Bernie was alive, they discovered that Bernie had ordered their deaths to cover up his clashes. It grossed \$30 million on a \$15 million budget. The film's success inspired the sequel, The Weekend in Bernie's II (1993). Plots Larry Wilson (Andrew McCarthy) and Richard Parker (Jonathan Silverman) are two low-level financial workers at an insurance corporation in New York City. While going through an actuarial report, Richard discovered a series of payments made for the same death. Richard and Larry took their findings to the CEO, Bernie Lomax (Terry Kiser), who praised them for discovering insurance fraud and invited them to the Hamptons, Long Island, beach house for Lab Day weekend. Unknowns Larry and Richard, Bernie were behind the scam. Nervously meeting with his mob friend Vito (Louis Giambalvo), Bernie asked to have Larry and Richard killed. However, after Bernie left, Vito decided Bernie had drawn too much attention with his plurality and his relationship with Vito's girlfriend, Tina (Catherine Parks), and the order that she was killed otherwise. Bernie arrived on the island before Larry and Richard and planned the murder with Paulie (Don Calfa), a hitman, on the phone, unaware the conversation was being recorded on his answering machine. Bernie then planted cash and false confessional notes implying Larry and Richard in insurance fraud. Paulie arrived and killed Bernie with an overdose of heroin. When Larry and Richard arrived at Bernie's home, they were surprised to find Bernie's remains. Before they can contact police, guests arrive for a party used by Bernie to host every weekend. To amass Larry and Richard, guests were too involved in their party to see him dead, with dopey grins from lethal injections and his sunglasses that distinguished his lifeless condition. Fearing the implications in Bernie's death, and wanting to enjoy home luxury for the weekend, Larry suggested he and Richard maintain the illusion that Bernie was alive, a notion that Richard found ridiculous. Only the arrival of Richard's office was ruined, Gwen Saunders (Catherine Mary Stewart), a summer intern for the company, convinced her to go along with Larry. Late that night, Tina arrives at the house, and has Larry and Richard direct her to Bernie. There, he also failed to realize he was dead. At that time, Marty, one of Vito's giants witnessed both of them seemingly making Deceived by the thought of killer Bernie failing, he informed Vito. The next morning, Richard appealed to discover Larry extending Bernie's surviving illusion by manipulating his limbs. Richard tried to call the police but instead activated a phone message detailing Bernie's plot against them. Unaware of Bernie's circumstances of death, they mistakenly believed they were still the target of a hit mob and decided to use Bernie's remains as a prop for protection. Richard and Larry made numerous attempts to leave the island. All attempts were eliminated, as they repeatedly lay and restored the remains of Bernie. Finally, Larry and Richard had to go home to Bernie. Meanwhile, Paulie, unsealed by her failure to kill Bernie, returned to the island. At the house, Gwen confronted Larry and Richard, who confessed that Bernie had been dead since before their arrival. Paulie then appeared and opened fire in Bernie, then turned his attention to Larry, Richard, and Gwen. Chasing after the trio, Paulie corners Larry, whose clumsy managed to subdue him with phone straps and punched. The police eventually arrived and put Paulie under arrest, taking him away to the strait as he continued to insist Bernie was alive. Bernie loaded into an ambulance, however, his gurney rolled over and topples off the footpath, throwing it to the beach right behind Richard, Larry, and Gwen, who run away after noticing him. Finally, a young boy came along and began to slick a bucket of sand on top of the body, burying Bernie. Cast Andrew McCarthy as Lawrence Larry Wilson Jonathan Silverman as Richard Parker Terry Kiser as Bernie Lomax Catherine Mary Stewart as Gwen Saunders Don Calfa as Paulie Catherine Parks as Tina Eloise Broady as Tawny Gregory Salata as Marty Louis Giambalvo as Vito Ted Kotcheff as Mr Parker Margaret Hall as Lomax secretary, Jason Woliner as Bratty children Reception On Rotten Tomatoes , it holds a 54% approval rating based on 24 reviews. The consensus of the site sounds, The Weekend on Bernie's wing is a staggering amount of laughter from the corps-driven slapstick premises, but one joke can only bring movies so far. [3] On Metacritic it had a score of 32 out of 100 based on reviews of 5 critics, indicating generally unfavorable reviews. [4] The audience surveyed by CinemaScore gave the film grade B on the scale of A+ to the F.[5] Peter Travers of Rolling Stone called the film flavorless and raw and felt that in the end it was impossible to drag one tired joke around for almost two hours. Like Bernie, the film ends up dying on its feet. [6] Roger Ebert echoed this sentiment, arguing that films centered on dead bodies were rare Ebert gave the film 1 out of 4 stars in total. [7] The film raised US\$30 million in box officials, and was profitable on home videos. [9] The film's ending credits soundtrack features the song Hot and Cold, presented by American singer Jermaine Stewart. It was written by Andy Summers Summers Winston Pipe Matthews, and produced by Richard Rudolph and Michael Sembello. [10] The song was released as single by Arista in the United States in June 1989 to promote the film. [12] Lawsuit on January 24, 2014, director Ted Kotcheff and screenwriter Robert Klane filed a lawsuit against Metro-Goldwyn-Mayer and 20th Century Fox for breach of contract for profit they claimed were due to the film. [13] [14] In popular culture The film was quoted and referenced in the TV series How I Met Your Mother, where the characters tried to comically regain the film plot. [16] The film was revealed as a secret favorite of Rachel Green (played by Jennifer Aniston) in season 4, episode 12 of the TV series Friends, titled The One with the Embryos. [17] In season 6, episode 12 of It's Always Sunny in Philadelphia, Dennis Reynolds tried to quietly eliminate what appeared to be a patient who died from the hospital room by slapping sunglasses over him and rolling it out in a wheelchair. The scheme, intended to free the room for her sister Dee who was in the early stages of labour, was soon revealed to have been inspired by the film. A weekend at Benson's, an episode of the Common Show in which the main characters, Mordecai and Rigby, take their unconscious boss Benson to the party, are a direct reference to the film. The film's poster is one of many featured on the walls of Jake's English home on Webcomic Homestuck. [18] Webcomic itself also contains several unreafactive gadge involving the use of stuffed bodies, possibly drawing inspiration from the Weekend in Bernie's Mystery Season 10, episode 8 of the weekend in Murdoch's has Crabtree, Higgins and Murdoch reanimating Roger Newsom with wheelchairs rigged specially to catch the killer. Bernie's cardboard cuts were placed behind home plate during another empty Kansas City Royals game in August 2020, during the affected COVID-19 pandemic season. [19] In October 2020, No To Joe PAC released an advertisement that eased the film titled Weekend at Biden's. The ad was created by Nick Ward, who also appeared in it as one of the candidate's assistants. [20] See also Two Quincas Wateryell Reference Deaths ^ b Weekend in Bernie's. Box Office Mojo.
